Good Way to Use

Besides breathing through the inhaier a few times a day, many catarrh sufferers write that they find the HY-OMEI Vapor Treatment each night be-fore retiring a great aid in coring stub-bern research.

omei vapor Treatment each night before retiring a great aid in curing stubborn cases.

Try it, it's very simple; gives quick relief and makes you breathe easier.

Thoroughly heat a teacup; then fill it half full of boiling hot water. Four into the water one-half teaspoonful of HYOMEI. (Do not stir.) Hold the cup close to face and breathe deep into the lungs the healing, germ destroying vapor that arises.

This method relieves that stuffiness at once and makes your head feel clear. You can get a battle of HYOMEI intalent. But bear in mind if you want a HYOMEI inhaler you must buy a complete outfit which only gosts \$1.00.

HYOMEI is guaranteed by druggists everywhere for catarrh, sore throat, coughs, colds and croup, or money back. Kelly & Pollard guarantee HYOMEI.

A Hint Of Spring

Mrs. Percy V. Pennybacker, national president of the Federation of Women's clubs, and Mrs. Emmons Crocker, chairman of the committee on national conservation, arrived in the city this morning from Santa Fe, N. M., where they have been attending the State Federation of Women's clubs. This afternoon from I to 4:30 oclock a reception is being tendored Mrs. Pennybacker and Mrs.
Crocker on the messanine floor of Hotel Paso del Norte. This reception is
given for the personal friends of the
two women and the members of the El
Paso Woman's club. Tonight at the
First Christian church, Mrs. Pennybacker will speak to the public, and a

everyone.

backer will speak to the public, and a great treat is said to be in store for everyone.

Mrs. Pennybacker has been very active in the state federation work of the women's clubs for many years, and when she was here 16 years, ago and spoke most stirringly and interestingly, she was president of the state federation. She has also held the office of treasurer of the national federation of clubs, and it was alse who started the movement for the endowment fund for the national federation. Texas was the first state to fulfill her promise for the fund, and it was through the influence of Mrs. Pennybacker that this was brought about.

Mrs. Pennybacker, besides being a brilliant woman and forceful speaker, possesses a charming personality, which draws everyone to her with whom she comes in contact. Mrs. Pennybacker has been getive in pushing the movement in Texas toward the betterment of conditions in both an educational and moral way. She wrote the Texas history which is being taught in the schools of Texas and with her unusual personality has always been a leading figure in every convention of the women's clubs held.

Mrs. Pennybacker and Mrs. Crocker will be the guests of Mrs. E. Kohlberg during their stay in the city, the former being a personal and warm friend of Mrs. Rohlberg.

Parties.

GROUNDHOG SEES HIS SHADOW SUNDAY

According to Legend There Should Be Six Weeks of Disagreeable Weather as a Result.

One guess. What day was Sunday, February 27 Wrong-it was groundhog day, the na-tional holiday of the amateur weather wishers. February 2 is the day schediled for bree ground hog to make his annual exodus from his hole under the old sycamore tree at the gap on Griffy ereck, squint up at the sun in his know-ng way, and forecast the weather for the following six weeks. If he lamps his hadow in the winter sun, back B"r Cr. liog goes for six weeks mere of snooze in the soft bed of leaves. If the clouds becure the sun, and there is no shadow visible, he remains out of his winter hab-

itation and there will be no more winter

weather. This is the legend of the ground hog, as teld by the long whiskered forecasters around the barrel stoves in the cross roads grocery. The groundhog had a chance to observe his classic outlines in silbouette Sunday, for the sun was up with the lark and on the job all day. Mayhap the disappearance of the groundhog into his hole caused the little windstorm Sunday afternoon, which chased real propcrty around and around in dust squalls until it sought refuge in the lungs and eyes of the Sunday afternoon strollers. But Sunday was a fine day to be out-doors, and if the groundhog bent it back to his subcellar apartment he showed such little judgment of weather that his forceasts could not be accepted with that

same frank faith as those of weather-master B. E. Major. The groundhog, alias the woodchuck, has so much to do with the weather, El Pasoically speaking, as has the phases of the moon to do with the planting of otatoes. The international dictionary classifies the groundheg as a mamot, in the volume from "Fuller's Earth to Halilherium." What he is as a weather-wise man, at least in El Paso, is what is called in political circles by a short and ugty word, for there is as fine a chance of having six weeks of bad weather here as there is for a depot car to run on time.

A new body and two new wheels will be secured. The chassis and the engine will serve their purpose after being overhauled. Practically all the springs were broken. It is the worst wrecked car ever seen in El Paso. There was no collision; the machine fulled to make a curve and went into the ditch.
